Comments:

This yearling stallion is definitely a rarity. There are only 3 TWHBEA registered tobiano (spotted) sons of the great Jose' Jose'. The potential of this stallion as a show horse and breeding stallion are limitless. He is out of a daughter of the multi-titled Colors In General who also stood at Rising Star Ranch. You won't find anything like him because they just don't exist. He has perfect confirmation and his build and movement is like all other great Jose' sons. The Jose' x MG cross has sired World champions such as WC Muchos Colores. When this colt becomes the most talked about flat shod horse around and wins in both Spotted and Walking venues and he is earning money for his owner as a breeding stallion; don't be the one saying "I wish I would've".
